REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art teaches the transesterification of acrylate type polymers without crosslinking to incorporate hydroxy functionality as one method of said incorporation, but does not teach or motivate one of ordinary skill in the art to perform the reaction on crosslinked acrylate polymers of the specific type required by applicants' claims, nor does the prior art suggest transamidation for this purpose. Applicants' claimed process is, therefore, both novel and unobvious over the closest prior art as cited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernard Lipman whose telephone number is 571-272-1105. The examiner can normally be reached on 8-5 Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on 571-272-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
